2009 ATV UTILITY
ACCESSORIES & PARTS

XP READY, SET, GO!

P Pure Polaris understands the riding experience better than anyone in the industry. We pay attention to the little things – like designing cargo boxes that are not only easy to install but big enough to hold and store a helmet and other touring essentials. Only the highest quality accessories are endorsed by our developers, with a focus on fit and ease of installation so riders can experience the ultimate in ATV fun and function. Exclusive Lock & Ride® technology continues to expand into the ATV product line, establishing a clear Pure Polaris point of differentiation in the marketplace. And look for XP Ready Sportsman accessories identified throughout the catalog.

XP READY

WINCHES

Polaris® winches are designed for Polaris ATVs. They're pre-wired and color-coded to correspond to wiring in our machine, so installing them is easier than anything else out there. And with as many jobs as one can do with a Polaris ATV, that number skyrockets when you add a heavy-duty Polaris winch.

POLARIS 3500 LB. WINCH

The new 3500 lb. winch has been sealed for weather resistant operation in the most extreme conditions. Includes a 50' synthetic rope made of 3/16" blue Amsteel®, a hand-held remote control, a 166:1 gear ratio, zinc-alloy outer housing, and 1st stage gears that are stamped, not powdered metal. This powerful winch also features a 1.2hp motor and a 3500 lb.- rated pull, adding incredible versatility. Includes roller fairlead, hook and red strap. Integrates with all Polaris Brushguard systems.

PART N ^o .	2876591	FITMENT	Sportsman XP
PART N ^o .	2877303	FITMENT	Sportsman MY 05-09

POLARIS 2500 LB. WINCH

We designed our new 2500 lb. capacity winch with all the same quality features as after market winches – minus the price tag. This year, we made it even better by sealing it for weather resistant operation in the most extreme conditions. This rugged Polaris winch features factory-installed, color-coded wiring; a handlebar switch; a high quality, permanent magnet motor; a roller fairlead for less cable wear; a mechanical, dynamic brake, plus a cam-action that disengages the gear system for free-spooling.

PART N ^o .	2876592	FITMENT	Sportsman XP
PART N ^o .	2877302	FITMENT	Sportsman MY 05-09

POLARIS 1500 LB. WINCH

This powerful winch has the same great performance and quality as others we carry, but is more compact to fit the mid-sized ATVs. Handlebar mounted rocker switch and roller fairlead included. 1.5ci 1,500 lb. capacity.

PART N ^o .	2875880	FITMENT	Sportsman 300, Hawkeye
PART N ^o .	2876639	FITMENT	Sportsman 400

WARN® RT 30 WINCH

Designed exclusively for the Polaris Sportsman, this winch features a convenient handlebar switch, custom designed wiring and a roller fairlead for smooth operation, less cable wear and longer cable life. Offers an impressive 3,000 lb. pulling capacity.

PART N ^o .	2877455	FITMENT	Sportsman XP
PART N ^o .	2876819	FITMENT	Sportsman MY 05-09

POLARIS WIRELESS WINCH REMOTE

Operates winch wirelessly within 50 feet of the ATV. Easy installation, plugs directly into Polaris Winch wire harness. Remote holster with belt clip included. Red LED light indicates that the remote is transmitting.

PART N ^o .	2877221	FITMENT	Polaris or Polaris Warn Winch Kits
-----------------------	----------------	---------	------------------------------------

POLARIS WINCH ACCESSORY KIT

Includes a tow strap, shackle, and snatch block all conveniently packaged in a nylon bag for help out of sticky situations.

PART N ^o .	2876105
-----------------------	----------------

PLOWS

Nothing else in the industry compares to Polaris Plow Systems for quality and ease of installation and operation. Our exclusive Lock & Ride® Glacier® I and Glacier® II Plows install in forty-seconds or less without tools (after the initial install of the mount) – faster by far than any other plow out there. Our Easy Lift Plow Systems are designed so installation takes only a few minutes. Once installed, whether they are winch/electric-lift or hand operated, all our plows are operated from the driver seat. And to top it off, our plow systems are designed to integrate seamlessly with our Sportsman ATVs.

48", 52", 60" Blades

60" Razor Two-Way Blade

56" One-Way Blade

4. SELECT A PLOW BLADE

Select a blade from our variety of sizes and capabilities, each with Polaris engineering for a perfect fit. Our blades fit all our plow frames.

INSTALLING THE GLACIER® II PLOW SYSTEM

Align frame blade to plow mount

Slide blade and frame into mount

Attach lift cable and place the plow into position

ORDERING A POLARIS PLOW SYSTEM

1. Select a mount plate.
2. Select a frame.
3. Select a lift method.
4. Select a plow blade.

2. SELECT A FRAME

Lock & Ride® - easy on/off

3. SELECT A LIFT METHOD

Choose a Polaris winch, Polaris Warn® winch or an electric lift. Sportsman ATVs come with factory installed wiring for all Polaris and Polaris Warn® winch kits for fast installation. All winch kits come pre-wired and are only available from Polaris.

1. SELECT A MOUNT PLATE

Our mount plates are designed exclusively for Sportsman models, not a “generic fit” design like our competitors. There is little to no loss of ground clearance with mount installed.

GLACIER® II PLOW SYSTEM

This plow system incorporates Lock & Ride® technology for the fastest on/off capability, the easiest maneuverability, and the greatest versatility and range of motion of any plow system on the market. We've refined the technology so it still installs in seconds. It has a 20" + blade lift height, but is 36 lbs. lighter and stores easier than the original Glacier.

SPORTSMAN XP GLACIER II PLOW FRAME

fä 1g' ävã- qzããz OYoei' e äi %o
fã pl' ä' goz Yãl %ã Qzããzãz C' oãe

SNOW BLADES

Select a blade from our variety of sizes and capabilities, each with Polaris engineering for a perfect fit. V-Plow blade only fits the Glacier I plow system.

GLACIER II MOUNT PLATE

Our mount plates are designed exclusively for Sportsman models, not a "generic fit" design like our competitors. There is little to no loss of ground clearance with mount installed.

PART No. 2871980

HEAVY-DUTY FRONT SUSPENSION SPRINGS

Stiffer springs replace stock springs for carrying heavier loads and riding on extreme terrain.

Increases lift while snow plowing. Spring rate is 128 lb./in.

PART No. 2876153

FITMENT Sportsman MY 05-09

COIL SPRING SPACER

Increases leverage by reducing compression of the front suspension from the weight of a plow. Can be used in single or multiple pairs for greater lift. (Sold in pairs.)

PART No. 2872655

FRONT SPRING PRE-LOAD ADJUSTERS

Everything a person needs to adjust spring pre-load for varying loads and off-road conditions.

PART No. 2876463

FITMENT Sportsman MY 05-09

REAR TIRE CHAINS

Size C. 25"/26" Tire.

PART No. 2870948

PLOW MARKER

Rises above the snow so the driver can monitor the position of the plow blade at all times.

PART NO. **2872726**

60" FLOATING WEAR BAR

Unique design prevents catching an edge, and turns a plow into a year-round, all-weather machine. Perfect for use on gravel and grass areas to move landscaping, construction, or miscellaneous debris.

PART NO. **2875369**

SUPER HEAVY-DUTY SKID SHOES

Hardened steel gives them industrial strength, helping prevent blade damage. More durable than stock skid shoes.

PART NO. **2873423**

SNOW DEFLECTORS

Boosts plow capacity and keeps snow and dirt moving in the right direction. Quick detach feature makes it easy on/easy off. Fits 48", 52", 60" and V-Plows.

SIDE PANEL DEFLECTORS

PART NO. **2872061**

60" STANDARD WEAR BAR

PART NO. **2871808**

V-PLOW BLADE SNOW DEFLECTOR

RAZOR TWO-WAY BLADE DEFLECTOR

PART NO. **2875521**

MOWERS

44" TRAIL MOWER – ROUGH CUT

Powered with a 14.5 hp I/C Briggs & Stratton® engine. Features a 12V electric start, heavy-duty swinging blades that cut most stems up to 2" in diameter, remote blade engage and enhanced deck and hitch system. Battery not included.

PART No. 2856672

44" TRAIL MOWER – ROUGH CUT

Comes with 12.5 hp Briggs & Stratton® recoil start engine. Features remote blade engage, cuts most stems up to 2" in diameter and safe single point height adjustment.

PART No. 2856671

52" TRAIL MOWER – ROUGH CUT

Comes with the biggest Briggs & Stratton® electric start engine at 18.5 hp. Features remote blade engage, cuts most stems up to 2" in diameter and safe single point height adjustment. Battery not included.

PART No. 2856673

60" FRONT/REAR MOWER

Powered with a 14.5 hp Briggs & Stratton Intek I/C OHV engine with 12V start. Features side discharge, floating deck and easy tool-less hitch adjustments. Also includes infinite height select and key presence lock-cut system. Battery not included.

PART No. 2856670

44" TRAIL MOWER – FINISH CUT

Comes with a 11.5 hp I/C Briggs & Stratton engine with recoil start. Features easy tool-less adjustments, rear discharge and key presence lock-cut system.

PART No. 2856668

50" FRONT/REAR MOUNT MOWER – FINISH CUT

Powered with a 11.5 hp Briggs & Stratton engine with recoil start. Features remote manual clutch and floating deck design for an accurate cut.

PART No. 2856669

LIGHTWEIGHT TRI-FOLD RAMPS

This ramp folds up to fit under an ATV during transport. Smaller open spaces means easier loading. Handles up to 1,500 lbs. Comes with safety straps and instructions.

72" X 51" LIGHTWEIGHT TRI-FOLD RAMPS

PART N^o. 2875385

82" X 51" LIGHTWEIGHT TRI-FOLD RAMPS

PART N^o. 2875860

ALUMINUM ARCHED LOADING RAMP

Each of these ramps measures 76" x 12" and can handle up to 2,000 lbs. in combined capacity. Easily transportable.

ALUMINUM ARCHED LOADING RAMP

PART N^o. 2875384

FITMENT (Sold as pair.)

HEAVY-DUTY ALUMINUM ARCHED RAMP

This ramp set has 3,000 lbs. of combined loading capacity to make this our strongest ramp.

PART N^o. 2875386

FITMENT (Sold as pair.)

FOLDING HEAVY-DUTY ALUMINUM ARCHED RAMP

Convenience and strength were merged to create this ramp which is built to look and perform like a loading ramp, not a ladder-like substitute. Strong enough to load 1,500 combined lbs. yet small enough to fold and fit underneath an ATV during transport. Comes with safety straps and instructions for use.

PART N^o. 2875387

FITMENT (Sold as pair.)

XP READY

LOCK & RIDE® 14 GALLON SPRAYER

No towing necessary – tank pops on and off the rear rack of the machine for a fast, efficient system. Features exclusive Lock and Ride anchor mount (sold separately). Includes 15' hose on hand sprayer with 45-degree adjustable spray tip.

LOCK & RIDE® CARGO BOXES, BACKREST AND POCKET BAGS

**ACCESSORIZE IN SECONDS.
THE FASTEST IN THE INDUSTRY.**

LOCK & RIDE CARGO BOXES

It doesn't get any easier than this. Align the cargo box to the Lock & Ride holes (left), insert the expanding anchors into the Lock & Ride holes (center), push down the anchor to lock it in place (right), and go.

SPORTSMAN® XP LOCK & RIDE® REAR CARGO BOX

This extra large-capacity cargo box carries up to two helmets and features security locking latches. It's constructed of heavy-duty polyethylene and features weather resistant lid gaskets. Lock & Ride Technology means it goes on and comes off in just 15 seconds. Cargo pocket bags not included.

Includes: Gun Scabbard and Cargo Pocket Bags

PART NO. **2876601**
FITMENT Sportsman XP COLOR Black

SPORTSMAN XP LOCK & RIDE® FRONT CARGO BOX

This cargo box replaces the front rack and offers convenient storage for tools, gear, or other small to medium sized items. Features a sturdy injection molded design with reinforced lid. Lid doubles as a front rack with numerous attachment points for tie-downs or bungee straps. The Lock & Ride® Technology means easy on, easy off. Late Fall availability.

PART NO. **2876600**
FITMENT Sportsman XP COLOR Black

LOCK & RIDE® 1-UP TOURING REAR CARGO BOX

Our biggest cargo box yet! Holds up to two helmets plus gear. Constructed of rugged roto-molded plastic and features Lock & Ride Technology. Replaces passenger seat. Attach the 1-up Touring Cargo Box Backrest for added rider comfort.

2009 ATV PERFORMANCE
ACCESSORIES & PARTS

LISTEN TO THE SOUND OF QUALITY

A Authentic, quality accessories developed expressly for the Polaris Outlaw are making headlines for 2009 including performance-boosting exhaust, nerf bars and heel pockets. And of course the racing experience wouldn't be complete without the right gear. The Pure Polaris technical line now offers jerseys, jackets, pants and gloves so one can look as fast as Polaris racing team legend, Doug Eichner, best known for winning the 12-hour Ponte De Vaux in France an unprecedented seven times.

NERF BARS

Designed to provide added protection and safety. Made of 1-1/4" brushed aluminum tubing, rugged steel mounting plates, and replaceable and adjustable nylon netting.

Part number: 2876843
 Part name: Nerf Bars
 extra protection

PART No. **2876843**
 FITMENT All Outlaw except MY 09 IRS

FOOT PEG EXTENSIONS

For added foot traction and safety when riding the Outlaw or Predator. Bolts on to existing foot peg.

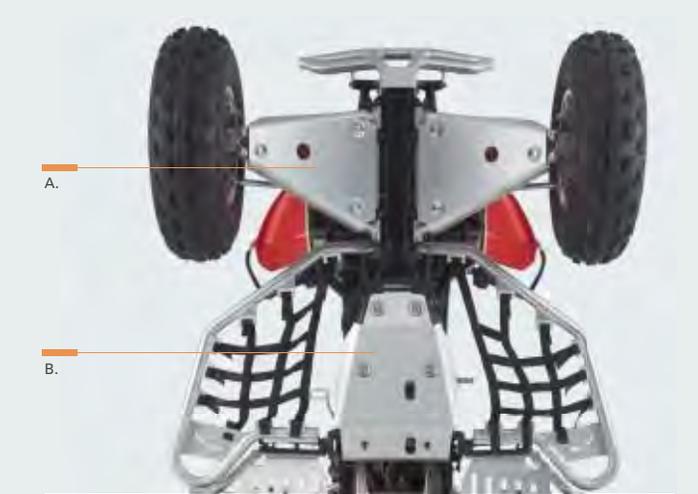

PART No. **2875433**
 FITMENT Predator, Outlaw

OUTLAW HEEL POCKETS

Rugged aluminum construction for a solid stance and added protection. Gives aggressive riders the edge for superior overall handling. Built from rugged 1" x 0.125" wall aluminum tubing.

PART No. **2876865**
 FITMENT Outlaw MY 06-08

PART No. **2877598** PRICE
 FITMENT Outlaw MY 09

A. ALUMINUM A-ARM GUARDS

Made from 0.125" aluminum with a line grain brush finish and attaches to the A-arm using billet hooks.

PART No. **2877601**
 FITMENT All Outlaw

B. ALUMINUM SKID PLATE

Made from 0.190" aluminum with a line grain brush finish and attaches using existing mounting points and billet hooks.

PART No. **2877600**
 FITMENT All Outlaw S/MXR

OUTLAW FRONT GRAB BAR

This front grab bar fits seamlessly with the Outlaw's skid plate for hardy front end protection and an aggressive custom look.

ACCESSORIES & PARTS

INTRODUCING OVER 100 NEW PRODUCTS

With over 100 new product items this year, there's a lot of excitement surrounding *RANGER* 2009. Including a completely upgraded and revamped cab line, based on tiered price points and compelling consumer features. Gone are the days of tractor type cabs, today's Pure Polaris cab systems boast premium, automotive quality features and partnerships with some of the best brands in the business including Bestop^{®†}.

BESTOP® CAB SYSTEMS AVAILABLE IN HARD-TOP & SOFT-TOP

INTRODUCING THE MOST VERSATILE CAB SYSTEM IN THE MARKET PLACE. Bestop, an industry leader, has been designing and building the most diverse mix of truck and SUV accessories for 50 years. Utilizing the finest craftsmanship and materials and specializing in Fit, Function and Style the Bestop/*RANGER* cab systems deliver premium quality inside and out.

This premium cab system features the ultimate versatility with sliding rear windows and doors, soundproofing design and a quality fit and finish.

PREMIUM TIP-OUT GLASS WINDSHIELD

This versatile laminated automotive safety glass windshield can be operated over any terrain at any speed in three different positions including closed, vented and fully extended. The interior surface is lined with sound-insulating material.

BESTOP® HARD CANOPY TOP & BESTOP® HARD REAR PANEL

Off-road automotive quality and weather sealing make the Bestop® cab the premier choice for those seeking the highest in quality. Comprised of twin sheet thermal formed materials, this versatile cab system provides great fit and finish plus bonus state-of-the-art features including sliding rear windows, interior sound insulation on canopy and overhead speaker enclosures and additional accessory switch mounting surface.

BESTOP® HARD DOOR KIT

Twin sheet thermal formed door panels feature sliding door windows, and are easily removable. Low profile paddle handles won't catch on brush.

This versatile cab system provides state-of-the-art features including interior sound insulation and overhead speaker enclosures.

Hard doors feature sliding glass windows and more.

BESTOP SOFT DOOR KIT

This one-piece design with roll-and-store soft PVC glass offers doors with paddle style closures and a serviceable door skin. Easily removable, low profile paddle handles won't catch on brush.

Windshield flip up position

Windshield venting position

BESTOP® CAB SYSTEMS - HARD-TOP

The Bestop® Hard-Top features a hard canopy top with interior sound insulation and overhead speaker enclosures. Available with hard doors featuring sliding windows or soft door with roll and store PVC glass.

PREMIUM TIP-OUT WIPER KIT

Single-arm wiper mounts to the exterior of windshield, clearing driver's side of windshield.

BESTOP® A-PILLAR/QUARTER PANEL KIT

The base of the Bestop cab system includes replacement quarter panels, A-Pillar and rear panel. Required for all Bestop Cab systems.

Hard doors feature sliding glass windows and more.

Soft doors feature roll-and-store PVC glass

Windshield flip up position

PREMIUM FIXED WIPER KIT

PART No. 2876969
 FITMENT Windshield 2876954-067

*Adding a windshield to any open air vehicle causes a low pressure area behind the windshield that attracts dust to this area. To minimize this effect, Polaris recommends the use of the Pure Polaris Rear Panel any time a windshield is installed.

BESTOP® CAB SYSTEM - SOFT-TOP

Soft canopy roof and rear panel allows for the versatility of an enclosed or open air system.
Available with hard doors featuring sliding windows or soft doors with roll-and-store PVC glass.

BESTOP SOFT DOOR KIT

This one-piece design with roll-and-store soft PVC glass offers doors with paddle style closures and a serviceable door skin. Easily removable, low profile paddle handles won't catch on brush.

BESTOP® A-PILLAR/QUARTER PANEL KIT

The base of the Bestop cab system includes replacement quarter panels, A-Pillar and rear lower panel. Required for all Bestop Cab systems.

Soft doors feature roll-and-store PVC glass

*Adding a windshield to any open air vehicle causes a low pressure area behind the windshield that attracts dust to this area. To minimize this effect, Polaris recommends the use of the Pure Polaris Rear Panel any time a windshield is installed.

POLARIS STEEL CAB SYSTEM

SOLID STEEL FOR YEARS OF RUGGED RIDING. The dependably true Polaris Steel Cab has been designed for the hard-riding RANGER enthusiasts seeking quality, durable steel construction. Features include interior sound insulation and a high quality fit and finish.

STEEL CAB REAR PANEL

Featuring a polycarbonate rear window, this steel rear panel offers interior sound insulation and a textured exterior finish.

STEEL CAB ROOF

A top quality roof that functions with or without the following components:

Windshield - Page 71

Rear Panel - Page 71

Doors - Page 71

STEEL CAB DOORS

Comprised of fixed tempered glass, these durable steel cab doors offer a textured exterior finish, interior sound insulation and paddle handles and latches for a low profile that won't catch on exterior brush. Tool-less removal delivers the ultimate in convenience.

PREMIUM FIXED GLASS WINDSHIELD

Laminated automotive quality safety glass, the universal windshield is constructed on a steel frame and features interior sound insulation.

High quality interior sound-insulating materials line the inside of the cab system.

PREMIUM FIXED WIPER KIT

Synchronized wipers operate and park at the bottom of the driver's and passenger's view. Dual arm wiper kit contains just one motor to conserve electrical draw.

ORDERING THE POLARIS STEEL CAB SYSTEM

The next generation of steel cabs for the consumer who wants extreme durability and premium sound insulation.

RANGER WINCHES

Designed and tested by Polaris engineers, our Winches are proven to be the industry's most powerful solution for all *RANGER* vehicles, and this year we've improved it again.

Polaris Multi-Mount Winch

POLARIS 4500 LB. WINCH

This powerful winch is built to handle any heavy-duty task. It's a tough 1.6hp workhorse with 4500 lbs. of pulling power and is wired specifically for Polaris *RANGER* vehicles.

- The sealed motor and gear train allows for flawless operation in extreme conditions
- Mini-rocker corded switch with shift knob trigger 2nd control
- Roller fairlead included

Available in multi-mount, extreme and integrated

WARN® RT 40 WINCH

The rugged 4.0 ci Warn Winch will pull up to 4,000 lbs.

It fits perfectly on *RANGER* vehicles – right out of the box.

The winch includes a handy remote control and a durable aircraft quality cable. Available in multi-mount, extreme and integrated

INTEGRATED WINCH

Mounts behind the stock or accessory bumpers, includes mounting hardware and wiring.

FITMENT All Warn® Winches

THE BOSS®+ PLOW SYSTEM

Polaris and THE BOSS® have teamed up to offer this special package, available only for the Polaris *RANGER*. This rugged plow system comes complete with the following features:

HIGH PERFORMANCE HYDRAULIC PACKAGE: With the touch of a button, a user can easily lift, lower and change the blade angle – all from inside the cab. In addition, when the plow is detached from the vehicle, the hydraulics come off with the plow.

SMART HITCH® 2 ATTACHMENT SYSTEM: The SmartHitch 2 attachment system allows a user to attach and detach the snowplow with little to no physical effort.

SMARTTOUCH2® CONTROL: The SmartTouch2 control is easy-to-use and is designed for either right or left-hand use. The handle can be removed providing several different mounting options.

HEAVY-DUTY CONTROL PLUG: The large diameter connector pins provide an extremely reliable electrical connection even in the most extreme weather conditions.

PART NO. **2877046**

FITMENT MY 09 4x4, XP, HD
Does not work with accessory brushguards.

PART NO. **2876870**

FITMENT MY 05-08 2x4, 4x4, XP
MY 08-09 CREW
MY 05-09 6x6
Does not work with accessory brushguards.

POLY BLADE:

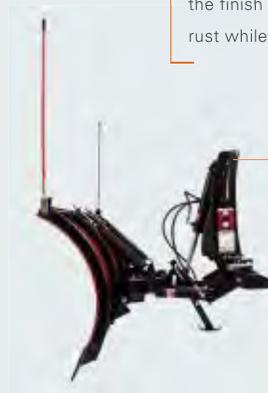

Unlike similar metal blades, our super-slick poly blade allows snow to slide off with less friction, resulting in less stress on the vehicle's drive train. And full color saturation keeps the plow looking new longer.

SMARTSHIELD®+ PAINT FINISH

All metal parts are coated with a zinc primer first, before the finish coat is applied and baked-on, to protect against rust while providing a long-lasting, high gloss shine.

Enclosed Hydraulics: The snowplow hydraulic and electrical systems have been completely enclosed to protect against corrosion and hydraulic freeze up.

Sloped Profile Undercarriage: When the plow is detached, the sloped profile design does not hinder ground clearance or inhibit trail riding. For convenience, the undercarriage is compatible with the stock brushguard and winches.

GLACIER® II PLOW

The NEW Glacier II Plow for the *RANGER* is designed to help move snow quickly and efficiently. We've added new features like a winch shut off that's unique to a blade this affordable. And because it uses our exclusive Lock & Ride® technology, the plow blade goes on or off in under a minute. Works with all accessories and stock bumpers. Requires a winch.

Installing is easy:

- Align *RANGER* with Glacier Plow System
- Position lever upwards to lock in place
- Attach winch hook to plow frame
- Raise the plow and ride on

Step 1
GLACIER II PLOW MOUNT

Designed exclusively for *RANGER* models, the Glacier II Plow Mount is not a generic fit design.

PART NO. **2877185**
FITMENT MY 09 4x4, XP, HD

Step 2

THE BOSS® LIFT & CARRY SYSTEM

From the leading expert in snow removal equipment, and the company that builds the hardest working, smoothest riding side-by-sides, comes the BOSS® Lift & Carry System. This heavy-duty electric powered hydraulic system is able and willing to plow, bucket and grapple. With a 500-lb. lift capacity, the *RANGER* Boss Lift & Carry™ System reduces work time of common chores and projects. For use with *RANGER* HD only. **Late Fall availability.**

LIFT SYSTEM

PART NO. 2877047

FITMENT MY 09 HD

Dump bucket, V-Plow and Brush grapple sold separately.

SmartHitch2® Multi-Tool Interface and Vehicle Attachment System provide quick tool change-out and incredibly easy system attachment and removal.

The multifunctional joystick control can be used in the left or right hand and has two modes, one for the Plow and another for the Bucket and Grapple.

To top it off, we've coated every metal part with our SmartShield® Paint Finish to protect against corrosion and provide a long lasting shine.

The large diameter connector pins in the Control Plug ensure a reliable electrical connection.

Sloped profile undercarriage that's compatible with all Pure Polaris winches and brush guards. The undercarriage will not hinder ground clearance or inhibit trail riding.

High-performance fully enclosed hydraulics package allows the rider to perform all functions from within the cab and protects the system from corrosion and hydraulic freeze-up.

BOSS® LIFT & CARRY DUMP BUCKET (2877050)

BOSS® LIFT & CARRY V-PLOW (2877048)

BOSS® LIFT & CARRY BRUSH GRAPPLE (2877049)

- Recommended usage with Fox Air Shocks 2877060, see page 122
- Recommend 200 lbs. of ballast weight to be used in rear of *RANGER* bed when operating Lift & Carry implements

THE BOSS® LIFT & CARRY DUMP BUCKET

This heavy-duty hauler carries fill dirt, landscaping rocks, wood mulch and other debris from pile to place. Eliminates heavy lifting, the Lift & Carry Dump Bucket will drop materials wherever they're needed. Late Fall availability.

PART No. **2877050**
 FITMENT **MY 09 HD**
 Requires 2877047 (Lift System)

Features our high-gloss corrosion-resistant SmartShield® Paint Finish.

An extra large 3.5 cubic ft., 500 lbs. capacity bucket, ensures riders will be able to move all their cargo in one trip.

To ensure long life, we've constructed this bucket of high strength 4-gauge steel.

THE BOSS® LIFT & CARRY BRUSH GRAPPLE

This Lift & Carry Brush Grapple tool is exactly what a rider needs to pick up and haul loads of brush, thatch, logs, fence posts or straw and hay. Late Fall availability.

PART No. **2877049**
 FITMENT **MY 09 HD**
 Requires 2877047 (Lift System)

A double acting cylinder attached to the grapple arm provides substantial hydraulic grappling power.

Constructed from 3/16" Grade 80 Plate high strength steel to ensure long life.

All metal parts are painted with our SmartShield® Paint finish which features a zinc primer and a baked-on finish coat for corrosion protection and long lasting, high-gloss shine.

THE BOSS® LIFT & CARRY V-PLOW

The folks at BOSS know a thing or two about plow blades. So they helped us create this Multi-Position Plow for our Lift & Carry System. The plow tool makes it easy to move snow in the winter. **Late Fall availability.**

PART NO. **2877048**

FITMENT **MY 09 HD**

Requires 2877047 (Lift System)

Full Mold-Board Trip Mechanism keeps the plow from getting caught on unforeseen obstacles.

The Multi-Position Plow blade flares from 25° at center to 30-1/2° on each end to provide serious carrying capacity and drift busting power.

Hydraulic Lift & Angling allows the rider to position the plow quickly and easily from inside the cab.

SmartShield® Paint Finish on all metal parts.

1/4" x 5" high strength cutting edge provides extended wear resistance.

3 position widths – Straight: 6' 6", Vee: 5' 8-3/4", and Scoop: 5' 6-1/2" help the blade fit through the narrowest of corridors.

CARGO BOX LIFT 4X4

The Cargo Box Power Lift has a heavy-duty actuator which automatically raises, making dumping dirt, sand, mulch, feed and fertilizer as easy as flipping a switch. All mounts are integrated into the chassis, cutting installation time by an hour. Includes all hardware and a dash-mounted switch.

PART NO. 2875027

PART NO. 2876944 / Set of 4
 FITMENT MY 05-09 (except 6x6)

PROSPECTOR PRO®+S TRACK SYSTEM

The Prospector Pro is the ultimate all season, all-terrain AWD track system for Polaris vehicles. And this year, it's even better. We've completely redesigned the gearing and lengthened the footprint for excellent low-end performance in swamps, bogs and snow. We also reduced the size of the front sprocket for extra fender clearance. Designed to provide exact fit and mounting to the *RANGER*. **Not available until late Fall.**

- True all-season, all-terrain capability for farmers and ranchers, electric companies, contractors, resorts, or search and rescue
- Steering is easy, in mud, boggy terrain or snow, for longer rides with less fatigue
- Features large-diameter corner wheels to increase the approach angle and easily clear obstacles
- Optimized gearing for superior low-end performance and true AWD
- Spring loaded anti-rotation, incredible traction and flotation, longer wear and less maintenance

PROSPECTOR PRO TRACK SYSTEM

PART N^o. **2876664**
 FITMENT All models

PROSPECTOR PRO-S

Fine-tuned gear ratio to optimize track spin and lengthened rear footprint for greater flotation. Not available until late fall.

PART N^o. **2877539**
 FITMENT All models

PROSPECTOR PRO UPDATE KIT

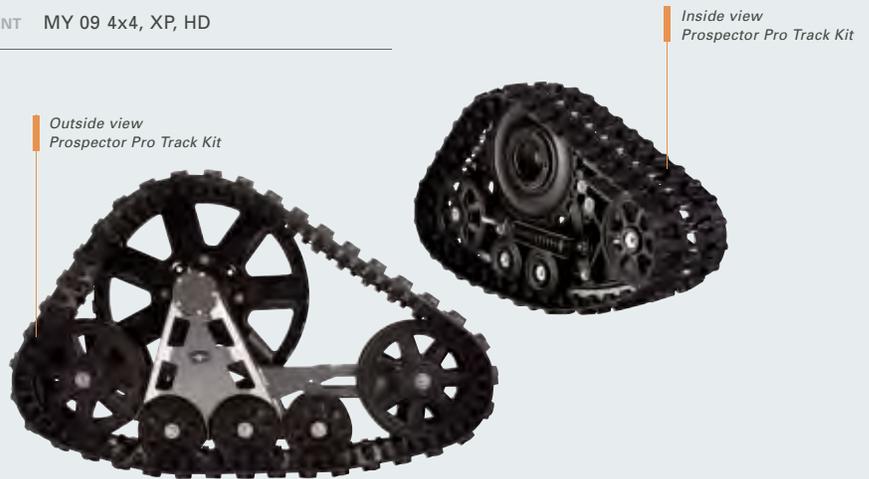

Update the Prospector Pro to a Pro-S kit. Improved gear ration and increased rear footprint.

PART N^o. **2877540**
 FITMENT Track System 2876664

RANGER TRACK SYSTEM MOUNT KITS

PART N^o. **2876904**
 FITMENT MY 05-08 and 09 CREW

PART N^o. **2877053**
 FITMENT MY 09 4x4, XP, HD

**UNIVERSAL STEREO
INSTALLATION KIT**

Under dash stereo mount includes all necessary wiring for hassle-free installation. The kit works with any standard automotive stereo receiver.

PART NO. **2876970**
FITMENT MY 09 4x4, XP, HD

KICK PANEL SPEAKER ENCLOSURES

An integrated design allows two 6" diameter speakers to be tucked neatly under the vehicle's dash.

PART NO. **2876971**
FITMENT MY 09 4x4, XP, HD

KICK PANEL SPEAKER ENCLOSURES

Designed specifically to hold the KICKER® Speakers (2876179 – sold separately). Enclosures hold the speakers below the dash inside the replacement kick panels, so they're tucked neatly out of the way.

PART NO. **2876180**
FITMENT MY 05-08 4x4, XP, 6x6, CREW
MY 09 CREW, 6x6

**KICKER® MARINE GRADE
SPEAKER PACKAGE**

Polaris has teamed up with KICKER® Audio to bring ultimate audio performance to the Polaris *RANGER*. This rugged and reliable package features all-weather Marine grade coax wiring and 3/4" tweeters.

PART NO. **2876179**
FITMENT All models

SPEAKER POD ENCLOSURE KIT

This kit allows speakers to be mounted above the cab, wakeboard-boat style, for big sound.

PART NO. **2876181**
FITMENT All models

**JENSEN® MARINE GRADE HEAD UNIT
WITH CD, MP3 INPUTS**

This high-end CD player head-unit is marine-grade and comes with an auxiliary input for MP3 players. It's a must have *RANGER* add-on and includes a remote control.

PART NO. **2876173-02**
FITMENT MY 05-08 4x4, XP (requires 2877140)
MY 05-09 6x6 (requires 2877140)
MY 08-09 CREW (requires 2877140)
MY 09 4x4, XP, HD (requires 2876970)

KENWOOD®+ AM/FM/CD STEREO

With a detachable face, this AM/FM radio and CD player can also play WMA and MPS formats. Compatible with iPod® and Aux inputs. For enclosed cabs only – not marine approved/waterproof.

2009 SIDE X SIDE PERFORMANCE
ACCESSORIES & PARTS

CUSTOMIZING A *RANGER* RZR IS ESSENTIAL

From aluminum brushguards, fender flare kits to custom paint and billet items, no *RANGER* RZR is complete without adding a personal signature or critical performance upgrade. And now even more accessories are available for 2009 to further fuel the accelerating *RANGER* RZR demand. What makes owning a SXS performance vehicle so cool, however, is its practicality. And to support the premier of our newest model, be ready for the *RANGER* RZR S with essential accessories fit-ready.

ALUMINUM BRUSHGUARD

Made of a premium lightweight aluminum 1-1/2" tube with a brushed finish, this system offers the same protection at half the weight of the current steel system. Front brushguard features an integrated bash plate that wraps under the front of the vehicle and two auxiliary light mounting tabs with pre-drilled holes. Drilling may be required for certain lights. Integrates with Winch and Plow System. All mounting hardware included. Installs in less than 10 minutes by using pre-drilled mounting locations.

Front Aluminum
Brushguard

PRE-RUNNER BRUSHGUARD

Adds a sporty look and excellent front or rear protection from brush, low-hanging branches and trail debris. Features a durable 1-1/2" tube design, with a powder coat finish. Front brushguard features an integrated bash plate that wraps under the front of the vehicle and two auxiliary light mounting tabs with pre-drilled holes. Drilling may be required for certain lights. Integrates with Winch Kit and Plow System. All mounting hardware included. Installs in less than 10 minutes by using pre-drilled mounting locations. Lights sold separately.

FITMENT *RANGER RZR MY 08-09,
RANGER RZR S MY 09*

FENDER FLARE KIT

The new Polaris designed Fender Flare Kit updates the *RANGER RZR* to the look of a *RANGER RZR S*. Designed to integrate with *RANGER RZR* styling while offering increased side and mud protection. An essential for customers upgrading rim and tire kits, the flare kit adds 4" to each side. Constructed of high-quality durable plastic. All mounting hardware and instructions included for easy installation.

PART N^o. 2877314
 FITMENT *RANGER RZR* MY 08-09

Front Profile

Rear Profile

UNDERBODY ARMOR

Replaces the stock plastic skid plate with an aluminum skidplate system. This is ideal for serious trail and desert riders. The skid plate is constructed from durable 1/8" thick aluminum for the sides and front 2/3's of the main body, the rear 1/3 is constructed of 3/16" thick aluminum. All mounting hardware included.

RANGER RZR POLARIS 3500 LB. SEALED WINCH

Designed and tested by Polaris engineers, this is the most powerful winch available for the *RANGER RZR* and this year we've improved it again. The new 3500 lb. winch has been sealed for weather resistant operation in the most extreme conditions. Includes a 50' synthetic rope made of 3/16" blue Amsteel®, a 166:1 gear ratio, zinc-alloy outer housing, and 1st stage gears that are stamped, not powdered metal. This power winch also features a 1.2hp motor and a 3500 lb.- rated pull, adding incredible versatility. Includes roller fairlead, hook, orange strap, handheld remote, winch mounts and all mounting hardware. Integrates with all Polaris brushguard systems.

PART NO. **2877349**

FITMENT *RANGER RZR MY 08-09,*
RANGER RZR S MY 09

**RANGER RZR WARN®† 3.0 RT WINCH**

Comes equipped with exclusively designed Polaris mount plates. Includes a handheld remote, roller fairlead, and strap and all mounting hardware. 3,000 lb. capacity.

PART NO. **2876446**

FITMENT *RANGER RZR MY 08-09,*
RANGER RZR S MY 09

GLACIER® II RANGER RZR PLOW

Combines the popular, award-winning Glacier® II Plow with the RANGER RZR. This plow system incorporates Lock & Ride® technology for the fastest on/off capability, the easiest maneuverability, and the greatest versatility and range of motion of any plow system on the market. The mount simply installs with 6 bolts.

Requires:

Glacier II Plow Frame #2876623, Mount #2876450, Winch Kit, and Blade.

Plow mount will fit with any Pure Polaris™ brushguard.

Recommend using Coil Spring Spacers, sold in pairs, #2872655.

**ORDERING IS EASY****1. Select a Mount****GLACIER II RZR PLOW MOUNT**

Includes plow blade markers.

LOCK & RIDE® CAB

Made of durable polyethylene, and offering great fit and finish. Features removable windows and a sliding rear window. Each component weighs less than 25 lbs. Underdash Blockoff Kit included with cab. After an initial one-hour installation, the Lock & Ride cab can be easily taken on and off in less than 5 minutes. Doors simply detach with the removal of a single pin* Unique Lock & Ride anchor technology on the rear panel installs with cab frame hooks, while the roof quickly attaches via cab frame hooks and Lock & Ride clamps. Other cab features include a roof vent that enables air flow. Kit contains updated door-trim lines, reducing the potential for air gaps. NOTE: Lock & Ride technology on roof not applicable if installed with a glass windshield.

PART N^o. **2877466**
FITMENT **RANGER RZR MY 08-09**

Includes:

Roof / Rear Panel / Doors

Lock & Ride Windshield #2876524 or
Glass Windshield #2877420 recommended;
sold separately.

Rear Profile

RANGER RZR S CAB

Similar to the Lock & Ride Cab for the RANGER RZR, this all-weather cab maintains the same features while adapting to fit with the rear extender system on the RANGER RZR S.

PART N^o. **2877467**
FITMENT **RANGER RZR S MY 09**

Lock & Ride Windshield #2876524 or Glass Windshield #2877420 recommended; sold separately.

*Always use cab nets or doors when operating vehicle.

CANVAS CAB

Lightweight and designed for easy on/easy off. Made of durable 600 denier solution dyed polyester. Features fully framed doors, tubular-framed soft top and zip-out windows. Rear panel features a large clear vinyl window. Doors simply detach by removing two pins for each door*. Doors close with high powered magnets.

PART NO. **2876680**

FITMENT *RANGER RZR MY 08-09*

RANGER RZR S CANVAS CAB

PART NO. **2877541**

FITMENT *RANGER RZR S MY 08-09*

Includes:

Roof / Rear Panel / Doors

Lock & Ride Windshield #2876524 or Glass Windshield #2877420 recommended; sold separately.

Rear Profile

UNDERDASH HEATER

Connects to the *RANGER RZR's* power supply and heats the cab area when the engine is running. For added comfort in warm weather, heater core can be shut down for a cool interior breeze.

PART NO. **2876451**

FITMENT *RANGER RZR MY 08-09, RANGER RZR S MY 09*

REAR VIEW MIRROR

Convex design delivers a wide rear view. Can be used with all roofs, soft tops and windshields.

PART NO. **2876437**

FITMENT *RANGER RZR MY 08-09, RANGER RZR S MY 09*

UNDERDASH BLOCKOFF KIT

Blocks gap between floor and under the dash, preventing gravel and water from entering while reducing air flow. This kit is included with all *RANGER RZR* cab systems.

PART NO. **2876900**

FITMENT *RANGER RZR MY 08-09, RANGER RZR S MY 09*

*Always use cab nets or doors when operating vehicle.

SPORT ROOF

Ideal roof for trail riders and hunters. Made of rugged, scratch resistant high-density polyethylene material. Protects driver and passenger from weather and sun. Fits with the Lock & Ride® Windshield or Glass Windshield and the Cloth or Poly Rear Panel.

PART NO. **2876456**

FITMENT *RANGER RZR MY 08-09,
RANGER RZR S MY 09*

BIMINI CAB TOP

Protects the driver from the elements while adding a custom look. Features an imprinted Polaris logo on the front and quick release buckles and Velcro® straps for quick attachment. Made of weather resistant, durable marine grade vinyl material. Fits with the Lock & Ride Windshield or Glass Windshield and the Cloth or Poly Rear Panel.

PART NO. **2876434-070**

FITMENT *RANGER RZR MY 08-09,
RANGER RZR S MY 09*

SOFT TOP

Made of high quality 600 denier solution dyed polyester material. Features fade resistance, strength and dimensional stability. Fits with the Lock & Ride Windshield or glass windshield and the cloth or poly rear panel.

PART NO. **2876703**

FITMENT *RANGER RZR MY 08-09,
RANGER RZR S MY 09*

LOCK & RIDE® WINDSHIELD

Features Lock & Ride snap clamps for easy installation in less than 10 seconds. The snap clamps simply snap on the cab frame and hold the windshield securely in place. Made of premium optical polycarbonate with a premium hard coat finish to prevent scratching. Works with any roof or cab combination. Recommend Cloth or Poly Rear Panel to reduce dust swirl in cab.

PART NO. **2876524**
 FITMENT *RANGER RZR MY 08-09,*
RANGER RZR S MY 09

Lock & Ride
Snap Clamp

HALF WINDSHIELD

Polycarbonate half windshield adds protection from wind and debris while offering maximum visibility. Features a lip at the top to reduce the air flow into the driver and passenger's face.

PART NO. **2876435**
 FITMENT *RANGER RZR MY 08-09,*
RANGER RZR S MY 09

GLASS WINDSHIELD

Optional glass windshield offers excellent protection with a solid steel frame. Works with any roof or cab combination. Wiper sold separately. Recommend cloth or poly rear panel to reduce dust swirl in cab.

HEADACHE NET

Adds sporty styling while protecting the rider and passenger from cargo in the box. This net simply attaches with a buckle system. Integrates with all box accessories and any roof combination.

PART NO. **2876441-070**

FITMENT *RANGER RZR MY 08-09,
RANGER RZR S MY 09*

POLY REAR PANEL

Designed for trail riders looking to reduce dust swirl in the cab. The panel is constructed from clear polycarbonate and fits with the sport roof, bimini top, and soft top. The rear panel simply attaches to the rear cab frame with p-clamps.

PART NO. **2877327**

FITMENT *RANGER RZR MY 08-09,
RANGER RZR S MY 09*

CLOTH REAR PANEL

An economical alternative for the rider looking to reduce dust swirl in the cab. The rear panel is constructed from 600 denier dyed polyester material with a clear vinyl window. Can easily be rolled up and down for different riding purposes. Fits with the sport roof, bimini top and soft top.

PART NO. **2877411**

FITMENT *RANGER RZR MY 08-09,
RANGER RZR S MY 09*

SPARE TIRE HOLDER

Mounts a spare tire outside of the cargo box to prevent sacrificing cargo box capacity. Ideal for long trips over rough terrain when a spare tire is a must-have.

Required for RANGER RZR only:

RANGER RZR Spare Tire Holder #2875185,

Rear Bumper #2876403-458 or #2877309,

Lock & Ride Accessory Rack #2876378-458 and

Spare Tire Bar #2876402-458.

Use only the front tire for spare.

WALKER EVANS SHOCKS®†

Built by off-road racing legend, Walker Evans, these front and rear shocks feature full pre-load adjustment, billet anodized aluminum reservoir mounting and 16 quick adjustment settings for compression tuning. Each shock sold separately, springs included. These shocks contain anti-fade oil that has been developed from years of desert racing experience, which greatly reduces fading over long period driving conditions. Shocks feature heat treated stainless steel multi-shim design for variable speed dampening and Nitrit finish shafts that yield up to 75,000 PSI.

PROSPECTOR PRO[®]-S TRACK SYSTEM

The Prospector Pro-S is the ultimate all-season, all-terrain AWD track system for Polaris vehicles. And this year, it's even better. We've completely redesigned the gearing and lengthened the footprint for excellent low-end performance in deep mud, swamps, bogs and snow. We also reduced the size of the front sprocket to optimize gear ratios. The new Prospector Pro-S still holds traction better than its competitors. Designed to provide exact fit and mounting to the *RANGER RZR*.

PROSPECTOR PRO-S TRACK KIT

Fine-tuned gear ratio to optimize track spin and lengthened rear footprint for greater flotation.

Available late fall.

PART NO. **2877539** / Set of 4
FITMENT *RANGER RZR MY 08-09*

PROSPECTOR PRO TRACK KIT

PART NO. **2876664** / Set of 4
FITMENT *RANGER RZR MY 08-09*

PROSPECTOR PRO UPDATE KIT

Updates Prospector Pro to a Pro-S Kit. Improved gear ratio and increased rear footprint.

Available late fall.

PART NO. **2877540** PRICE
FITMENT All Prospector Pro Track Kits

PROSPECTOR PRO TRACK MOUNTS

Outfits the *RANGER RZR* with the all-season track system.

PART NO. **2876449**
FITMENT *RANGER RZR MY 08-09*

Optimized gearing for superior low-end performance and true AWD. Steering is easy, in mud, boggy terrain or snow, for longer rides with less fatigue.

Spring loaded anti-rotation, incredible traction and flotation, longer wear and less maintenance.

Features large-diameter corner wheels to increase the approach angle and easily clear obstacles.

True all-season, all-terrain capability.

*Trademark registered in United States.

LIGHTS

Additional lights are great for riding before dawn or after dark. Protective front grills keep lenses safe from flying rocks and debris.

LOCK & RIDE® LIGHT BAR

The light bar easily attaches with Lock & Ride clamps. Includes 3 tabs for light mounting.

RALLY LIGHTS

Black Rally Lights feature a 4" lens with a 35 Watt halogen bulb and black housing with a removable black grill. Chrome Rally Lights include a 4" lens with a 35 Watt halogen bulb and chrome housing. Mounting hardware included. Sold individually.

RACING GEAR DESIGNED TO SELL FAST

P Pure Polaris has translated its wealth of racing know-how into a complete line of technical ATV racing apparel, perfect for the die-hard, most discriminating racing enthusiast. With an increased commitment to ATV racing, Polaris boasts one of the most accomplished factory teams in the country. Its racing roster features some of the sport's most notable figures including ATV racing legend, Doug Eichner, best known for winning the 12-hour Ponte De Vaux in France an unprecedented seven times.

High quality safety gear that reduces the potential for injury is essential for power sports. Polaris recommends every rider take a training course and wears a DOT approved helmet. We offer an assortment of premium quality helmets in a variety of styles and sizes to fit all riders' needs.

SIZE

Riders should choose a helmet size similar to their hat size. If a rider doesn't know his or her size, check the sizing chart.

POSITION

A helmet should sit squarely on the head and not be tilting too far forward or back.

MOVEMENT

Riders should test the fit of the helmet by moving it side to side. If the scalp and skin moves with the helmet, the fit is correct.

CHEEK PADS

In a full-face or three-quarter helmet, the cheek pads should press against the cheeks slightly without causing discomfort or excessive pushing.

INNER LINING

The inner lining of the helmet should fit snugly all the way around the head. If riders notice pressure points or gaps, they should choose another helmet.

CHINSTRAP

The chinstrap should be tight, but not choking. The strap is too loose if one or more fingers can fit between the chin and the strap.

PRESSURE

Helmets should exert gentle overall pressure on a rider's head. Pain is not normal. If a rider experiences any sore or red spots from wearing the helmet, a larger helmet should be selected.

POLARIS HELMET TECHNOLOGY

Pure Polaris helmets have exceptional quality, comfort and fit. They are designed to be lightweight and provide maximum impact protection while delivering optimal visibility and ventilation. Many models feature a flow-thru ventilation system for exceptional cooling, quick-adjust straps and convenient washable liners. Plus many other features riders will appreciate.

DEMON HELMET

New for 2009, this state-of-the-art fiberglass helmet features a strong, lightweight shell designed for high performance riding.

Shell: Lightweight, composite fiberglass
Liner: Dual density, lightweight EPS liner

Vents: Aerodynamic, vented cover, flow-through ventilation system

Interior: Fully removable, washable Dupont Coolmax®+ liner

Additional Feature: Adjustable visor, goggle holder compatible with most goggle brands, adjustable chin strap, removable molded roost deflector, integrated nose guard

Safety: Snell/DOT approved

Polaris aggressively looks for ways to build and increase the marketing exposure of the Polaris brand. These products help Polaris build brand loyalty and awareness. A great way to do this is through licensed products. Polaris will only license its name to industry-leading manufacturers who offer high quality products. Polaris has teamed up with leading companies in the toy and recreational markets. We are now making these products available to Polaris dealers.

PEG PEREGO®[®] RIDE-ON RZR

PART NO. 2869511

Features all terrain power and an extra large battery for extended running time. Soft-start variable speed accelerator with coasting and power brakes add realism. 24 volt.

- 3 speeds, 2 1/2, 5 or 7 mph
- Working rear suspension
- Electronic radio and horn
- Ages 3-10

**INTERACTIVE TOY CONCEPTS:
REMOTE CONTROL SPORTSMAN**

The Polaris Remote Control Sportsman runs on grass, dirt, snow, gravel, sand, pavement, carpet and shallow water. Features digital proportional steering and throttle, realistic rubber tires and working lights with poseable action figure. Ready to go out of the box, includes one 7.2V battery and charger, removable windshield and cargo box. www.interactivetoy.com

**PEG PEREGO®[®] RIDE-ON
SPORTSMAN 800**

PART NO. 2869512

Features all terrain power and an extra large battery for extended running time. Soft-start variable speed accelerator with coasting and power brakes add realism. 24 volt.

- 3 speeds, 2 1/2, 5 and 7 mph
- Forward and reverse
- Electronic radio and horn
- Flip-up rear seat for extra passenger
- Ages 3-10

**SUNWEST SCREEN GRAPHICS
DECAL KIT**

Customize the *RANGER RZR* with this starter decal kit. www.wayoutdecals.com

**SUNWEST SCREEN PICKUP TRUCK
REAR WINDOW DECALS**

These window graphics reduce heat and glare and give vehicles that custom look. www.wayoutdecals.com

POLARIS SPORTSMAN MEN'S COMFORT BIKE

The Polaris Sportsman features a "laid-back" steel frame design for a more comfortable riding position, easy SRAM Twist Shift gear shifting and a cushioned saddle. Top performance comes from Shimano derailleurs, alloy linear pull brakes and aluminum wheels. A real comfort bike at a most comfortable price. The Sportsman comes in men's and women's style frames. www.cyclesourcegroup.com

POLARIS RMK DUAL SUSPENSION BIKE

The Polaris RMK features a long travel suspension fork, precision 21 speed Shimano drivetrain, front disc brake, and knobby all-terrain tires, all mounted to an aluminum suspension frame. www.cyclesourcegroup.com

INTERACTIVE TOY CONCEPTS: SPORTSMAN 800 TWIN WITH TRACKS

The Polaris Sportsman 800 runs on grass, dirt, snow, gravel, sand, pavement, carpet and even shallow water. Features digital proportional steering and throttle. Wheels can be replaced with the track system for high performance in snow, mud and extreme terrain. It features realistic rubber tires, working lights and comes with a poseable action figure. Ready to run out of the box, includes one .2V battery and charger, removable windshield and cargo box. Requires one 9V battery for the transmitter. www.interactivetoy.com

WATERPROOF/BREATHABLE SHELL MATERIAL

MEMBRANE & COATING SHELL MATERIALS: The outerwear shell materials we use come in varying degrees of waterproofing and breathability (WP/B) to match your particular riding style and climate. Often, a protective film or lamination is applied to a fabric to give it WP/B. Levels range from a PU coating which offers basic water resistance, to extremely high levels of breathability and waterproofing that keep users cool and dry in extreme wet or snowy conditions. The shell materials we use are listed here and are arranged in order from premium to basic WP/B.

Fabrics that are labeled as breathable allow perspiration vapor to escape through the fabric (almost as if the garment were exhaling) to minimize the amount of moist air trapped inside a garment. This helps keep the wearer drier—and thus warmer and more comfortable—than do traditional fabrics that do not “breathe.”

Fabrics that are noted as waterproof prevent water from seeping through and soaking the fabric. This is a great benefit to a snowmobiler, who is outside in moist air and wet snow all day. The seams of garments marked with better or best waterproof/breathable technology are fully taped so moisture cannot sneak through where panels of fabric are stitched together.

eVENT®: eVent® fabric is a Direct Venting™ waterproof barrier that marks a significant advancement in ePTFE laminate technology. Using proprietary and patented Dry System Technology®, eVent™ Fabric sets a new standard for comfort by allowing perspiration to dissipate and vent without saturating the inside of the fabric.

REISSA®, MVT® & HIPORA®: These coatings have a breathable polyurethane coating that is highly reactive to weather conditions. MVT™, Reissa® and Hipora® are extremely thin, lightweight, waterproof coatings which allow for bulk free wearing comfort but are also highly durable to survive extreme outdoor sports and weather conditions. Levels can vary from 2000mm/2000g to 20,000mm/20,000g.

POLYURETHANE: Polyurethane coated shell fabrics are water resistant, blocking wind and water. Entry levels can range from 600mm to 1000mm. Provides water resistance without breathability.

FABRICS

DENIER LEVELS (420 VS. 660): Denier levels refer to the thickness/weight of a fiber. It indicates the material’s durability. The higher the denier, the thicker the fiber; the lower the denier, the finer the fiber. Polaris uses fabrics with both 420 deniers and 660 deniers to optimize both riding comfort and protection.

CORDURA®: Maximum durability is what this fabric is known for and is used in products that take a beating – luggage, backpacks, boots and performance apparel. Cordura® resists tears, abrasions and scuffs like no other fabric of its kind or weight. This fabric is ten times more durable than cotton duck, three times more durable than standard polyester and twice as durable as standard nylon.

OXFORD NYLON: Oxford is a soft, basket weave fabric made from man-made materials. It is somewhat porous, giving its face (surface) a coarse “pin head” appearance.

TASLAN: This fabric is constructed of a number of materials including a trademarked textured yarn and polyamide fibers. Taslan fibers are steamed so that they swell and become softer, but retain their durability and resistance to wind and water. Taslan appears as if it has “lines” on its face (surface).

Power Items are high demand production products that are proven to yield the highest sales and turn rates.

INSULATION

INSULATION: The insulation layer in a garment often determines how it will be used. Preference, body type and climate play a role, but the most important factor may have to do with the type of rider you are. If you ride often and are a technical, aggressive rider, our premium insulators may be exactly what you want. If you are an occasional, touring or trail rider our more affordable lines may be for you. The types of insulations we use in our garments are listed here in order of premium to basic.

THERMOLITE®+ PLUS: Thermolite® Plus is even less bulky and thinner than Thermolite®. Made from non-allergenic recycled polyester fibers. It has exceptional durability after repeated washings and has more warmth than down when wet.

HOLLOFIL® II: A premium, high loft insulation that provides dependable warmth and durability. Hollofil® II offers consistency in loft, fiber content and insulating capabilities. Special four-hole fibers trap more air for greater warmth. It is engineered for cold weather apparel and sleeping bags to provide enhanced thermal performance along with freedom of movement. It limits radiant heat loss and greatly reduces convective heat loss.

OUTLAST®: Used in our socks, Smart Fabric Technology™ by Outlast® balances temperature so that your feet can stay cool, dry and comfortable throughout the entire day regardless of your body temperature or how hard you are riding.

POLYFIL®: Polyfil® is 100% polyester insulation that is machine washable and provides soft, affordable comfort. Polyfil® is used for general outerwear, sportswear and accessories to provide warmth and comfort and retains its insulating ability even under damp conditions.

COOLMAX®: Coolmax® fabrics are made of specially engineered fibers that transport perspiration away from the body to the surface of the garment, where it evaporates quickly. The uniquely shaped four-channel fibers provide excellent breathability even when wet, so your body is kept cool and dry during strenuous activity. Coolmax® is used in our socks to keep you warm and dry. Garments manufactured with Coolmax® fabrics must pass stringent certification tests.

BASE & MID LAYERS

BASE LAYER: These microfiber, moisture-wicking fleece fabrics are used in first layer apparel and layering systems for maintaining a perfect “next-to-skin environment”. This means that because it is on your skin, it will keep you ultra-warm on a day of cold, wet riding, and keep sweat away—evading that cold, clammy feeling. They have anti-microbial technology and anti-pill durability for long lasting warmth and comfort.

MID LAYER: Traps air and creates a holding pocket of body heat. Synthetic fibers work even when wet. Low profile moisture wicking performance with incredible warmth and softness.

POLARTEC® POWER STRETCH®: Polartec® Power Stretch features body-hugging four-way stretch and is very breathable. The durable nylon outer layer is wind- and abrasion-resistant; the soft inner layer pulls moisture away from your skin keeping you dry, warm and comfortable—without weight. Features compression stretch which can improve performance and reduce the chance of certain types of stop-go injuries. This fabric excels at handling the demands of the next-to-skin environment.

POLARIS BARRIER FLEECE: Polaris Barrier Fleece is a 100% polyester microfleece. Polyester microfleece is similar to traditional polar fleece, yet is comprised of exceptionally fine, micro-filament fibers making it a light and soft choice.

YOUTH ATV OIL

The new 4-cycle Youth ATVs deliver high output in extreme operating conditions. Youth ATV Oil is formulated to provide protection from high-heat and oxidation as well as offering superior wear protection.

PART NO. **2876248** SPECS Quart, 6 per case

OIL CHANGE KITS

Helps protect your engine from dirt, sand, mud, extreme heat or cold. This convenient kit contains everything needed.

Includes 4-Cycle PS-4 Plus Synthetic Engine Oil, oil filter, oil changing instructions

PART NO. **2877473**
 FITMENT Sportsman XP®, 550 and 850
 SPECS Twin Cylinder, 4 per case

PART NO. **2876738**
 SPECS Single Cylinder (450-500 engines),
 4 per case

PART NO. **2202166**
 SPECS Twin Cylinder (600-700-800 engines),
 4 per case

PREDATOR & OUTLAW 500 OIL CHANGE KIT

Keep machines at peak performance by changing the oil at recommended intervals.

Includes 4-cycle PS-4 Plus Synthetic Engine Oil, oil filter, filter cover gasket, oil changing instructions

PART NO. **2202511** SPECS 4 per case

MID-SIZE ATV OIL CHANGE KITS

Includes 4-Cycle PS-4 Plus Synthetic Engine Oil, oil filter, oil changing instructions

PART NO. **2875523**
 FITMENT Phoenix™, Sawtooth®

HYDRAULIC CLUTCH FLUID

Recommended fluid for the clutch on the Outlaw 500. Do not use brake fluid. Brake fluid is not compatible with the clutch seals and O-rings and should not be used.

PART NO. **2876335** SPECS Quart

LT DEMAND DRIVE FLUID

Engineering specified fluid for the front angle drive. Provides all possible protection from rust and corrosion while ensuring proper performance of the demand drive system.

PART NO. **2876251** SPECS Quart, 12 per case

ADC (ACTIVE DESCENT CONTROL) FLUID

located inside the front angle drive housing. This small volume, bleed-able unit, has an initial

PART NO. **2876144** SPECS Quart

ANGLE DRIVE FLUID

protects angle drive from extreme pressure and high-wear conditions.

PART NO. **2876160** SPECS Quart, 12 per case

PART NO. **2872276** SPECS 2.5 Gallon, 2 per case

GREASE GUN KIT

An easy, effective way to get at hard-to-reach grease fittings. Steel construction, with a compact pistol grip design for easy operation. Custom hose

PART NO. **2871312** SPECS 4 per case

PREMIUM ANTIFREEZE

Formulated specifically for Polaris high-performance cooling systems, our anti-freeze protects against corrosion, gel formation and hard water deposits.

PART NO. **2871534** SPECS Quart, 12 per case

PART NO. **2871323** SPECS Gallon, 6 per case

PART NO. **2872278** SPECS 55 Gallon

DEMAND DRIVE FLUID

This Polaris-developed fluid ensures a positive engagement and release of Polaris demand-drive systems.

PART NO. **2871654** SPECS Quart, 12 per case

PART NO. **2872277** SPECS 2.5 Gallon, 2 per case

PREMIUM FUEL STABILIZER

An essential additive whether a machine is on the trail or stored away in the garage. Prevents gasoline oxidation and fuel system corrosion and protects yellow-metal and rubber-fuel system components while significantly reducing gum and varnish.

PART N^o. **2870652** SPECS Quart, 12 per case

PART N^o. **2872280** SPECS 2.5 Gallon, 2 per case

ISOPROPYL FUEL DE-ICER

Extremely cold conditions call for an extremely effective fuel de-icer. This high-tech additive is formulated for use in all engines. Prevents fuel-line freezing even in the lowest temperatures.

PART N^o. **2870505** SPECS Quart, 12 per case

FOGGING OIL

Fogging is vital for preparing a vehicle for storage in the off-season. It protects against rust and corrosion on internal and external engine parts during extended periods of non-use, and effectively displaces and resists water and moisture. The stable residual film maintains a "friendly" surface for engine oil.

PART N^o. **2870791** SPECS 12 oz. Aerosol Can, 12 per case

CHAIN LUBE

Provides superior anti-wear and shock protection for extended chain and sprocket life. Resists dirt and water.

PART N^o. **2872348** SPECS 16 oz., 12 per case

PREMIUM GREASE PRODUCTS

A specialized water resistant lubricant engineered for the extreme pressure demands of Polaris Products.

ALL SEASON PREMIUM GREASE

PART N^o. **2871322** SPECS 3 oz. 4-pack, 6 per case

PART N^o. **2871423** SPECS 14 oz., 10 per case

PREMIUM STARTER GREASE

PART N^o. **2871460** SPECS 2 oz., 12 per case

PREMIUM U-JOINT GREASE

PART N^o. **2871515** SPECS 3 oz., 24 per case

PART N^o. **2871551** SPECS 14 oz., 10 per case

CARBON CLEAN FUEL TREATMENT

Removes fuel system deposits, patented additive that displaces moisture and works as an excellent fuel stabilizer during storage.

PART N^o. **2871326**
SPECS 12 oz. liquid, 12 per case

PREMIUM SYNTHETIC AGL GEAR LUBE

Pure Polaris gear case lubricant provides the best available synthetic protection for transmission components against rust, corrosion and wear in extreme operating conditions.

REAR SPROCKETS, FRONT SPROCKETS, DRIVE CHAIN

These high-tech chains and sprockets are computer designed to close tolerances for proper performance. They are manufactured from zinc-plated, high-tensile strength, heat-treated steel for unsurpassed durability and corrosion resistance. Feature an O-ring design to retain oil. Includes 1/8" x 1/8" x 1/8" alloy pins, solid bushings, shot-peened plates and rollers, "gold" outer plates, and is re-stretched.

PREFILTER

Slips over stock air filter and prefilters intake air on the machine, extending the life of the air cleaner. It is water repellent and can be cleaned and reused many times.

PART NO.	5811633
FITMENT	All 4-stroke models except 325/330 and Predator

DRIVE BELTS

Polaris belts have the lowest performance. Precision measured to ensure stringent tolerances are met for both length and width.

TRAILERS BY FLOE®

All Polaris trailers are available with FLOE's® exclusive patented Versa-Track tie-down system. This is the original infinite tie down system allowing quick lock and release with infinite front-to-back positioning capability. Made with top-quality extruded aluminum and stainless steel fasteners, trailers are lightweight, versatile, strong, stable and virtually maintenance free. Polaris trailer decking is a top quality treated 19/32" plywood for years of trouble free use. Polaris trailers use rubber torsion axles with Turbo-lube hubs.

Capped-off main beams keep road grime out (all models).

Cross members are welded on top, bottom and sides.

Super strong main structural beams are the heart of its structural integrity. Welded on all sides to ensure extra long life.

7" deep side panel extrusions.

FEATURES:

TO ORDER

Polaris trailers can be purchased through any FLOE® Polaris trailer dealer. To locate the dealer nearest you visit www.floeintl.com

RAMP TRAILER

All year, all uses, top performance. The ramp stows in the rear and attaches to both sides of the front and rear of the trailer for loading and unloading. Extra wide ramp is completely covered with plywood for safe, smooth loading of steering and traction products. The ramp secures tightly to the trailer and won't rattle. Welded on ramp handle for easy ramp handling. Available in 10', 12', 14', 16', 20', 22', 26' and 28' lengths.

POLARIS ACE TRAILER

A world-class combination of style, durability and simplicity. This trailer is light enough to be hauled by small tow vehicles but strong enough to handle the weight of a snowmobile or ATV. The trailer features a heavy-duty aluminum frame and a black powder-coated finish. It is designed for easy loading and unloading, and it includes a hitch pin and safety lights. The Polaris ACE trailer is a versatile and reliable choice for outdoor enthusiasts.

TILT TRAILERS

Without the need for a hitch pin, this patented fast-action tilt clamp is easier to use and eliminates the vibration and sloppy fit common with other trailers. The tilt trailer is designed for easy loading and unloading, and it is a great choice for outdoor enthusiasts who need a reliable and easy-to-use trailer.

ENCLOSED TRAILERS

The exceptional aerodynamic design provides greater fuel economy and passing power. All enclosed trailers feature a smooth aluminum skin. Opens front and rear for easy loading and unloading. The enclosed trailer is designed for easy loading and unloading, and it is a great choice for outdoor enthusiasts who need a reliable and easy-to-use trailer.

POLARIS UTILITY TRAILERS

For work, for play, and everything in between. The Polaris utility trailer is designed for easy loading and unloading, and it is a great choice for outdoor enthusiasts who need a reliable and easy-to-use trailer. The utility trailer is designed for easy loading and unloading, and it is a great choice for outdoor enthusiasts who need a reliable and easy-to-use trailer.
